EXPERIENCE

BACK-OFFICE CLERK OPERATIONS / ACTING BRANCH MANAGER

Zambia industrial Commercial Bank, Luangwa

Jul 2024 – March 2026

- Managed operational workflows for cash handling, customer service, and reporting, maintaining zero discrepancies and ensuring smooth day-to-day facility operations.
- Resolve client complaints and issues while providing timely solutions to improve customer satisfaction.
- Collaborated with management to optimise branch processes, improving service delivery and customer satisfaction.
- Coordinate branch operations to support strategic objectives and maintain service excellence.
- Developed branch strategies and translated them into actionable targets aligned with organizational objectives.

COMPLIANCE REGULATORY AND MONITORING OFFICER

Zambia industrial Commercial Bank, Lusaka

Feb 2024 – Jul 2024

- Conducted compliance monitoring, ensuring operational procedures aligned with regulatory standards and internal policies.
- Strengthened administrative workflows and reporting processes, improving efficiency across departments.

HEALTH ANALYST

Avencion Zambia Limited, Lusaka 2023-2024

- Conducted over 55 health talks at facility and community levels, resulting in a 35% increase in client awareness of treatment benefits and contributing to a 30% improvement in U=U status among ART clients.
- Strengthened ART appointment management by implementing digital tracking tools and triangulating data from physical registers and electronic health records, leading to a 20% reduction in missed appointments and improved continuity of care.
- Provided data management oversight to M&E teams at 3+ health sites, enhancing accuracy and completeness of service utilization data, which supported timely reporting and data-driven decision-making at both community and facility levels.
- Led quality improvement initiatives in ART services, resulting in a 15% increase in client retention across the sub-district through routine performance reviews and targeted interventions.
- Led the end-to-end data management process, consolidating over 2,000 client records monthly from SmartCare and the Client Retention Database, improving reporting timeliness and accuracy for 100% of weekly and monthly performance meetings.

RESEARCH ASSISTANT

University of Lusaka SOMHS/Cancer Diseases Hospital 2022-2023

- Supported the end-to-end data collection process from multidisciplinary healthcare providers including doctors, nurses, and oncologists, resulting in the successful preparation of high-quality data for secure storage and in-depth analysis.
- Successfully established and implemented interview itineraries through systematic planning, enabling early completion of data collection one month ahead of schedule (completed in 2 months instead of 3).
- Developed and coordinated data collection protocols while implementing rigorous quality control measures, which significantly reduced data bias and ensured generation of reliable, high-integrity data.
- Led monitoring and evaluation efforts for the research project by piloting, refining, and restructuring questionnaires, resulting in tools that were fully aligned with research objectives and enhanced the overall validity and rigor of the study.

NUTRITION SUPPORT GROUP SUPERVISOR INTERN

Chinsali District Health Office

Feb 2022 – Aug 2022

- Led the tracking and evaluation of the Baby-Friendly Hospital Initiative (BFHI), contributing to an increase in district-wide infant nutrition coverage and improved breastfeeding practices.
- Spearheaded community and school-based health education campaigns, reaching over 2,000 beneficiaries, and significantly enhanced public awareness of optimal nutrition practices.

- Led multi-sectoral collaboration within the WASH program, strengthening the impact of Child Health Week activities, road shows, and community campaigns, thereby improving hygiene and nutrition linkages.
- Coordinated multi-site health and nutrition programs, ensuring facility readiness, equipment availability, and effective workflow across district health posts.
- Facilitated training for 50+ community agents and conducted refresher courses for health workers, improving maternal nutrition counselling and increasing local capacity for nutrition support.
- Directed monitoring and evaluation efforts by developing, tracking, and assessing program indicators, delivering project goals supporting timely reporting and operational improvements.
- Contributed to high-quality report writing, ensuring accurate documentation of activities and outcomes to support evidence-based decision-making and future program planning.
